DIARY NOTES

25X1A

DD/S

17 September 1957

1. Dr. Tietjen advised me that we had received another 10,000 cc's of the Asian flu vaccine and I approved of his plan for using it. Briefly, it involves the immunization of another [] people at headquarters and the continuance of other programs such as the immunization of employees and dependents going overseas, shipments to overseas stations, etc. It will take another couple of weeks to complete the additional [] inoculations at headquarters, after which we will take another look at the situation.

2. John also advised me that at the request of the FI Staff his people (Psychiatric Division) and the Office of Training (Assessment & Evaluation Staff) had worked out a training program which is going to be undertaken sometime soon. He said that if this became a full-time load he was not sure that he could absorb it with his present psychiatric staff of four.
